National Cyber Security
Awareness Month

National CYBERSECURITY AWARENESS MONTH

In partnership with UBS
BDPA New York presents

Cyber Threats Beyond the PC

Panel Discussion

Thursday, Oct. 20, 2011,
6pm-8pm

UBS
299 Park Ave., 27th fl.
New York, NY 10171.

Panel discussion explores the growth & broader use of the internet for interconnectivity beyond our personal computers & the potential security risks

- Mobile handheld devices have become common place in our daily business & personal lives.
- The average home has at least 5 connected devices
- Machines-to-machine communications goes digital leveraging the internet for cost effective management & control

Are there inherits risk? Is our nation more vulnerable? With IT's years of experience, what can we bring to the table to solve the security problems?

Panelists

Minerva Tantoco, UBS Executive Director & Chief Architect for Wealth Management Americas

Glenn Siriano, KPMG, principal in the Information Technology Advisory Services (ITAS) practice

Carol Anthony, Metropolitan Transportation Authority, Director, Enterprise Security

Moira Jack, Sixnet LLC, Regional Sales Manager, Machine-to-Machine Automation & communication solutions
